REWARDS PROGRAM

1. Introduction

The BLUESCRYPTO ecosystem is continuously evolving to enhance the experience of its holders while promoting community engagement and loyalty. In line with this commitment, we are proud to introduce the BLUESCRYPTO Reward Program with the aim to provide holders with tier-based rewards distributed directly to their wallets each month. This document delves into the details of this innovative program, its objectives, structure, and the benefits it offers to BLUESCRYPTO token holders.

2. Funding

The BLUESCRYPTO Reward Program operates a sustainable funding mechanism. Supply has been allocated to the reward program via the founders' allocation, ensuring a stable and consistent source of funding for monthly rewards for a minimum of 6 months. By utilizing tokens from the founder allocation, the program promotes an even distribution of assets within the BLUESCRYPTO ecosystem. This approach aligns with the project's ethos of fairness and decentralization, as it prevents the concentration of rewards among a select few and instead benefits a broader base of token holders. Moreover, funding the reward program through tokens allocated to the founder reinforces the project's commitment to community empowerment. Rather than relying solely on external sources of funding or market speculation, the program leverages internal resources to provide tangible benefits to BLUESCRYPTO holders. As the program continues to distribute rewards to eligible holders, it plays a crucial role in promoting financial inclusivity and empowerment within the BLUESCRYPTO community.

3. Objectives

Enhanced Holder Engagement
The primary objective of the BLUESCRYPTO Reward Program is to foster active participation and engagement among BLUESCRYPTO token holders.

Long-term Investor Incentives
By offering regular rewards, the program incentivizes long-term investment in BLUESCRYPTO, thereby contributing to the stability and growth of the ecosystem.

Community Empowerment
The program seeks to empower the BLUESCRYPTO community by providing tangible benefits to loyal holders, reinforcing a sense of belonging and ownership within the ecosystem.

4. Program Structure

The BLUESCRYPTO Reward Program operates on a tier-based system, with rewards distributed monthly based on the holder's tier. The program comprises multiple tiers, each offering varying levels of rewards based on the amount of BLUESCRYPTO held by the participant.

Tiers

	Wallet Size	APY
Sardines	50,000 – 100,000	20%
Mackerel	100,001 – 500,000	30%
Tuna	500,001 – 1,000,000	40%
Sharks	1,000,001 – 10,000,000	50%
Whales	10,000,001 -	60%

5. Distribution

Rewards are distributed directly to the wallets of eligible holders on the first day of the month and will be based on a snapshot taken on a randomly designated day each calendar month. The distribution process is automated and transparent, ensuring seamless delivery of rewards to qualified participants. Important - You must hold an BLUESCRYPTO trustline to receive the Airdrop

6. Benefits

Steady Passive Income Holders receive a regular stream of BLUESCRYPTO tokens as rewards, providing a steady source of passive income. Increased Token Utility The program enhances the utility of the BLUESCRYPTO token, incentivizing holders to accumulate and hold their tokens for the long term. Community Building By rewarding loyal holders, the program fosters a strong and vibrant community, united by a shared interest in the success of BLUESCRYPTO . Incentive for Growth The prospect of earning rewards incentivizes new investors to join the BLUESCRYPTO ecosystem, contributing to its growth and expansion.

7. Conclusion

The BLUESCRYPTO Reward Program represents a significant step towards strengthening the bond between the project and its community. By providing holders with regular rewards, the program not only incentivizes long-term investment but also fosters a sense of belonging and camaraderie within the BLUESCRYPTO community. As the program continues to evolve, it is poised to play a pivotal role in driving the sustained growth and success of the BLUESCRYPTO ecosystem.
